July 2022 What's Coming up!

WildEarth	CAT	GMT	CET	EST
Sunrise Safari	6.30 - 9.30am	4.30 - 7.30am	6.30am -9.30am	12.30am - 3.30am
Escape To Nature	9.30am - 1.30pm	7.30am - 11.30am	9.30am - 1.30pm	3.30am - 7.30am
Penguin Beach	1.30pm - 2.30pm	11.30-12.30pm	1.30pm -2.30pm	7.30am -8.30am
Sunset Safari	2.30pm-6.30pm	12.30-4.30pm	2.30pm -6.30pm	8.30am-12.30pm

A Weekend at the Waterhole.

<https://vimeo.com/719147061/ca1717db2a>

Join us to see what goes down at some of Africa's best watering holes.
10th and 11th July

Across the vast African Savanna, the animals seem very spread out. But there is one place where animals gather like nowhere else. The waterhole. Currently Africa is deep into its dry season, with no rain having fallen for quite a few months. This means that the congregation of animals at the waterholes is larger than normal as there is no standing water in the reserve. Although the water is of course a life giving source for these animals, it is also a place of great danger. Predators lurk on the sidelines waiting for their prey to arrive. Put your feet up and Join our naturalists as they spend time relaxing at various waterholes across Africa.

Bird is the Word!

<https://vimeo.com/719147851/e4869f4248>

A two day birding blowout where we challenge ourselves to find as many of our feathered friends as possible.
23rd and 24th July

In conjunction with Birdlife SA, WildEarth is hosting a big birding blowout for two days. Bird will be the only word on everyone's lips for these days where we are going to search for as many of Africa's beautiful birds as possible. Get your notepads and pens ready, this is going to be one list to remember.

World Conservation Day

A Conversation about Conservation!

A dive into conservation in aid of World Conservation Day on 28th July.
25th to 28th July

Conservation is a daunting word. And often sorely reminds us of what we are yet to do. WildEarth is starting small, with a Conversation about Conservation. For three days we will look at three key elements. They are water, the life source of our ecosystem, habitat, the dwelling of our creatures and our keystone species. This is all in aid of World Conservation Day on 28th July 2022.
