EVIDENCE OF EVIL **Season 3. Premiere** ***ORIGINAL TRUE CRIME SERIES***

Sundays at 20:00, from 6th September.

Season 3 of the original true crime series "Evidence of Evil" explores and reconstructs some of the most intriguing and startling criminal cases of the past two decades, where technology changed the course of the investigations and brought the guilty to justice. Featuring key witness testimony, new interviews, reconstructed sequences and archive footage, the series showcases the hard work and dedication of investigators, police, scientists, and other experts in their fields.

Episode 1., "The Fridge Killer", airs on 6th September:
In February 1995, Police in Reno, Nevada were called to investigate a suspicious dumpster bin and made a startling discovery - a badly beaten body of a middle-aged female, tied up and wrapped in a sleeping bag. Detectives soon identified the deceased person as 45-year-old, missing school teacher, Kathy Powell. The case revealed a number of innocent victims connected by murder and the episode shows how an intensive investigation and forensic techniques finally led detectives to uncover a serial killer.
