Gold Rush

From Monday 2 November at 20:00

Living off the grid in the brutal wilderness of Yukon, a group of ambitious miners are in serious pursuit of gold. It's a make or break season for Rick who needs to cash in or he'll be cashed out. And, Parker is lined up for possibly his biggest season ever as he sets his eyes on home for his next gold-rich ground. The challenges that lie ahead are numerous, with the teams having to work punishing hours around the clock, to keep the machinery in working order. Their success or failure depends on the friendships that they are able to forge within the community, if they are to stand a chance at all of striking gold.

Gold Rush: White Water

From Monday 23 November at 20:55

Deep in the heart of the remote Alaskan wilderness, there's gold to be found - for those who have the grit to do dangerous and dirty work. Miners Dakota Fred and Dustin Hurt are two such individuals, and they carry out an even more dangerous, and potentially more lucrative, type of mining that separates the men from the boys. Tracking the source of gold up river into the mountains, and into old abandoned mining stations, they dive in white-water rapids and perilous plunge pools. Gold mining is a dangerous business, and no-one knows who's going to come out on top; but that doesn't stop these guys from their quest for the ultimate treasure, hidden in Alaska's wild and brutal land.
